

August 10, 2023

Dear Dean Hall and Dr. Abhishek Srivastava,

As part of the ongoing Academic Transformation initiative, the Provost's Office has completed its [Board of Governors Rule 2.2](#) Program Review process for the identified program(s) in the Management Department.

Possible Recommendations

Under WVU Board of Governors Rule 2.2., there are four possible recommendations for programs, and they are defined as follows:

1. Continue at the current level of activity (i.e., no recommended changes for the program)
2. Continue at the current level of activity with specific action (i.e., the program will continue to exist, but there are recommended changes for the program, including reduction of faculty positions)
3. Development of a cooperative program (i.e., potentially merging one or more programs together to create a new program / curriculum)
4. Discontinue the program (i.e., program will no longer exist after a teach out is completed)

Preliminary Recommendations

After considering the data previously released, the information contained within your unit's Self-Study Review Form, and consulting with the unit's dean's office, the Provost's Office Preliminary Recommendation is as follows:

- BSBA Management: Continue at the Current Level of Activity with Specific Action
 - Reduce the number of faculty positions associated with this program.
- MS Human Resource Management: Continue at the Current Level of Activity with Specific Action
 - Reduce the number of faculty positions associated with this program.
 - Resolve the specific actions already assigned to the program earlier this summer.

The key components that led to the Provost's Office Preliminary Recommendations include the following:

- The department was placed under review due to declining enrollment, a decrease in student credit hours and revenue, the ratio of faculty-to-program majors is below the median, and expenses exceeded revenue annually.
- The plan presented by the unit in its self-study proposed adjusting undergraduate curriculum to increase enrollment and student success, using instructional capacity from discontinuance of PhD program to decrease reliance on adjuncts, and increasing instructional efficiency. The unit directly engaged with its data and provided meaningful

context, especially in the area of past organizational moves in the college and how that affected the unit's metrics.

- The unit has worked with its dean's office via academic transformation to discontinue its PhD program and assign specific actions to the MS Human Resource Management.

Faculty Reduction Recommendations

Through this process, the Provost's Office has determined that the number of faculty positions in the unit should be reduced from its current number to 17. If this recommendation is approved by the Board of Governors on September 15, the Provost's Office, in consultation with the dean's office and the chair (where applicable), will develop the Reduction in Force Plan. This plan will determine the specific faculty members in the unit who will be retained or subject to a reduction in force / non-renewals. Additionally, that process will include discussion of which faculty positions can be reduced as of May 9, 2024, and which positions may be offered an extension beyond May 9, 2024, for teach-out programming. Finally, please note that in many units, voluntary attrition by faculty members (i.e., leaving the University for another opportunity or retiring from the University after July 1, 2023, and by or before June 30, 2024) may be considered as part of the faculty positions that are counted for elimination. However, the individual voluntarily leaving the University must provide the University notification of their resignation or retirement by September 30, 2023, if it is to be considered as part of the reduction numbers.

Notifying Your Faculty and Staff

The chair or school/division director must notify the faculty and appropriate staff within this unit of the Provost Office's Preliminary Recommendations by forwarding this email and CCing Associate Provost for Curriculum and Assessment Lou Slimak (Louis.slimak@mail.wvu.edu) and the college dean. This notification should occur **within 24 hours of receiving this letter**.

Program Review Appeal Process

If a chair, school/division director, or faculty member opts to appeal any part of the Provost's Office Preliminary Recommendation, they must submit a [Notice of Intent to Appeal](#) by **August 18, 2023**.

Any chair, school/division director, or faculty member who files a Notice of Intent to Appeal will receive notification at least three business days in advance of when the Program Review Appeal Committee hearing for their program will be scheduled. Most hearings will occur between **August 21 – September 5, 2023**.

To ensure a broad-based representation, the Provost's Office will establish a Program Review Appeal Committee specific for each unit. Members will include the vice provost, an associate provost (undergraduate or graduate), the program review officer, a representative from the dean's office of the unit's home college, two representatives from dean's offices outside of the unit's home college, and the Faculty Senate chair or designee.

The chair, school/division director, or faculty member who filed the Notice of Intent to Appeal must submit the [Program Review Appeal Form](#), which contains any additional information or data they wish the Program Review Appeal Committee to consider, at least two business days in advance of the hearing. For units appealing the number of faculty to be reduced, it is strongly

recommended that the unit present a staffing plan that demonstrates what number of faculty are needed to deliver the unit's curricular requirements, including the number and size of its section offerings.

During the appeal hearing, the unit's representative is given 30 minutes to present the substance of their appeal and 15 minutes to address questions from the Program Review Appeal Committee.

The Program Review Appeal Committee will then deliberate and vote to accept or change the Provost's Office Preliminary Recommendation. The program review officer tallies the votes, informs the Program Review Appeal Committee of the results, and communicates the results to the dean's office and chair or school/division director within three business days following the hearing.

If the appeal is denied, the original recommendation will be presented to the Board of Governors for a vote on September 15. If the appeal is granted, the Program Review Appeal Committee may provide a new recommendation to the dean and chair or school/division director. This new recommendation would also go to the Board of Governors for a vote. All decisions made by the Program Review Appeal Committee are final.
